Profession **Software Engineer**

Education **Bachelor's Degree** May, 1994
Bachelor of General Studies (Interdisciplinary Degree: Information Systems, Computer Science, Music) Virginia Commonwealth University, Richmond, VA.

Skills **MS Visual Basic .NET** and all versions prior, C#, ASP.NET, MS SQL Server, MS T-SQL, MS Access, MS Windows NT/2000/XP, InstallShield XPress and Professional, MS SourceSafe, C, C++, Crystal Reports, HTML, VBScript, Java Script, MacroMedia Dreamweaver.

Work Experience **.NET Developer 2006**
Phoenix Staff, Inc.
Las Vegas, NV
Contracted to GamingToday to upgrade an existing desktop application from VB2.0 to VB.NET. The application is a WYSIWYG tool that is used to design and print sports betting cards for the major casinos in Las Vegas. (MGM/Mirage, Mandalay, Station, etc.) The application makes extensive use of the Windows GDI and GDI+ graphics libraries. It is used in a mission critical environment to print thousands of sports betting cards on a weekly basis.

SQL Developer 2005
Phoenix Staff, Inc.
Las Vegas, NV
Contracted to Progressive Gaming International Corporation for assistance with the implementation of JD Edwards. Used SQL Server 2005 and T-SQL to code stored procedures for extracting and manipulating data from a JD Edwards system. Designed and developed a custom application for launching the SQL stored procedures externally. Hooked the custom application into a JDE menu so that it could be launched from JDE. Authored Crystal Reports for reporting on the extracted data.

System Architect/Developer/Tester/Administrator 2000 – Present
Cost Containment Strategies, Inc.
6330 S. Sandhill Rd.
Las Vegas, NV 89120
Sole architect, developer, tester, and administrator of a [medical bill review system](#) and document acquisition system for the worker's comp industry. Wrote all applications and supporting components using Visual Basic 6.0. Designed, implemented and maintained the database with MS SQL Server 2000. Designed reports using Seagate Crystal Reports. Systems rely on daily, automated processes, including importing and

exporting data over the internet, and printing of batch reports. A messaging component was developed for delivering the results of all automated processes to administrators.

Visual Basic Programmer 1999 – 2000

Paul D Sheriff and Associates

17852 E. 17th St. Suite 205

Tustin, CA 92780-2143

www.pdsa.com

Project manager for various applications utilizing Visual Basic 6, ASP and MS SQL Server. Mastered the PDSA Toolkit - a popular tool for rapid development of Visual Basic database classes. Paul D Sheriff is the Microsoft Regional Director for Southern California, as well as a popular author and lecturer on topics related to software development using Microsoft products.

Windows Programmer 1996 – 1999

Computer Age Dentist, Inc.

West Los Angeles, CA 91316

Lead and sole developer of [CADchart](#), a popular dental diagnostic and charting software application for MS Windows. Helped with converting other products to 32-bit. Developed and supported installers for all applications using InstallShield Professional. Implemented and oversaw testing cycle. Developed an intranet application for tracking customer support calls. Wrote a [utility](#) that translates Visual Basic source code from English into other natural languages. This utility was used to create Swedish versions of all dental applications.

Multi-Media Programmer 1996

Image Communications

Vienna, VA 22182

Collaborated with artists and programmers to develop multi-media CD-ROMs for both Mac and Microsoft operating systems. Clients included [Business Week Magazine](#) and Glaxo-Wellcome Pharmaceuticals. Developed a proprietary text search engine using low-level code.

Windows Kiosk Programmer 1996 – 1997

CarsTV

Richmond, VA 23229

Developed 24-hour [interactive kiosks](#) for use in shopping malls for advertising new and used cars. A non-interactive version of the kiosks was developed for cable TV channels. The content was also available online. A similar system was also developed for advertising real estate.

Windows Programmer 1993 – 1996

Chart-It, Inc.

Richmond, VA

Developed and maintained popular dental [imaging](#) processing and [diagnostic](#) software applications for Microsoft Windows 3.1.

Other Experience Professional Musician 1984 – 1991

Wrote [software](#) for learning music composition. Performed with popular professional musical groups.
